

Graduate School of Economics

MASTER IN **MACROECONOMIC POLICY AND FINANCIAL MARKETS**

www.barcelonagse.eu/masters

- Econometric techniques required for a state-of-the-art applied analysis.
- Numerical methods and simulation techniques useful in quantitative macroeconomics and in policy design and evaluation.
- Ability to write technical and executive reports and the skills to publicly communicate and discuss research work.

“ If you have a keen interest in a career in policy design, an excellent work ethic, and the desire to further your professional training while enjoying one of Europe's hippest cities, then this could be the master program for you. ”

Director: Francesc Obiols (UAB and Barcelona GSE)
Deputy-Director: Albert Marcet (ICREA-UPF and Barcelona GSE)
