6 ECTS

Quantitative & Statistical Methods II

Overview and Objectives

This course builds on and further extends the econometric and statistical content studied in the first quarter, with a special focus on techniques relevant to the specific field studied and their empirical applications.

Required Activities

The course will be structured into 4 hours of lectures a week. In addition, the students will have to hand in assignments.

Evaluation

Exam (70%) and problem sets / assignments (30%).

Materials

The list of references for this course will be provided at the beginning of the master.
